

## Appendix A

### Bibliography of Publications related to Virginia Seismicity

(organized by topic).

#### **Regional Earthquake Compilations**

- Amick, D. and Gelinas, R., 1991, The search for evidence of large prehistoric earthquakes along the Atlantic Seaboard: *Science*, v. 251, p. 655–658.
- Bollinger, G.A., 1969, Seismicity of the Central Appalachian states of Virginia, West Virginia, and Maryland - 1758 through 1968: *Bulletin of the Seismological Society of America*, v. 59, p. 2103–2111.
- Bollinger, G.A., 1973, Seismicity of the southeastern United States: *Bulletin of the Seismological Society of America*, v. 63, p. 1786–1808.
- Bollinger, G.A., 1975, A catalog of Southeastern United States earthquakes 1754 through 1974: Virginia Polytechnic and State University, Research Division Bulletin 101, v. 101.
- Bollinger, G.A., 1980, Virginia earthquakes 1978: *Seismological Society of America, Earthquake Notes*, v. 51, p. 1–26.
- Bollinger, G.A., Snoke, J.A., Chapman, M.C., Sibol, M.S., 1989, Estimates of the occurrence and resulting effects of damaging earthquakes in Virginia: *Virginia Minerals*, v. 35, p. 17–24.
- Cao, T., Bryant, W.A., Rowshandel, B., Branum, D., and Willis, C.J., 2002, The Revised 2002 California Probabilistic Seismic Hazard Maps: California Department of Conservation (California Geological Survey).
- Coffman, J.L. and Von Hake, C.A, 1982, Earthquake history of the United States: U.S. Department of Commerce, NOAA and U.S. Geological Survey, Publication 41–1.
- Engdahl, E.R. and Villasenor, A., 2002, Global Seismicity: 1900–1999: *International handbook of earthquake and engineering seismology*, v. 81A.
- Eppley, R.A., 1965, Earthquake history of the United States, Part I: stronger earthquakes of the United States: U.S. Coast and Geodetic Survey, Washington, D.C., 120 p.
- Hatcher, R.D., Jr., Vaughn, J.D., and Obermeier, S.F., 2012, Large earthquake paleoseismology in the east Tennessee seismic zone: results of an 18-month pilot study: *in* Cox, R.T, Tuttle, M.P., Boyd, O.S., and Locat, J., eds, *Recent advances in North American paleoseismology and neotectonics east of the Rockies*: Geological Society of America Special Paper 493, p. 111–142.
- Heck, N. H., 1928, Earthquake history of the United States: Department of Commerce, U.S. Coast and Geodetic Survey Special Publication No. 149.
- Hopper, M.G. and Bollinger, G.A., 1971, The earthquake history of Virginia, 1774 to 1900: Virginia Polytechnic Institute and State University, Blacksburg, Virginia.
- Kerr, R.A., 1985, Eastern quakes pinned down?: *Science*, v. 227
- Kerr, R.A., 1986, Charleston quakes are larger or widespread: *Science*, v. 233.
- Li, Q., Liu, M., Zhang, Q., Sandvol, E., 2007, Stress evolution and seismicity in the central-eastern United States: Insights from geodynamic modeling: *Geological Society of America Special Paper* 425, p. 149–166.
- MacCarthy, G.R., 1957, An annotated list of North Carolina earthquakes: *Journal of the Elisha Mitchell Scientific Society*, v. 73, p. 84–100.

- MacCarthy, G.R., 1964, A descriptive list of Virginia earthquakes through 1960: *Journal of the Elisha Mitchell Scientific Society*, v. 80, p. 95–114.
- Obermeier, S.F., 1985, Geologic evidence for recurrent moderate to large earthquakes Near Charleston, South Carolina: *Science*, v. 227.
- Petersen, M.D., Frankel, A.D., Harmsen, S.C., Mueller, C.S., Boyd, O.S., Luco, N., Wheeler, R.L., Rukstales, K.S., and Haller, K.M., 2012, The 2008 U.S. Geological Survey National Seismic Hazard models and maps of the Central and Eastern United States: Geological Society of America, Special Paper 493.
- Petersen, M.D., Moschetti, M.P., Powers, P.M., Mueller, C.S., Haller, K.M., Frankel, A.D., Zeng, Y., Rezaeian, S., Harmsen, S.C., Boyd, O.S., Field, N., Chen, R., Rukstales, K.S., Luco, N., Wheeler, R.L., Williams, R.A., and Olsen, A.H., 2014, Documentation for the 2014 Update of the United States National Seismic Hazard Maps: USGS Open-File Report 2014–1091.
- Reagor, B.G., Stover, C.W., and Algermissen, S.T., 1980, Seismicity map of the state of Virginia: U.S. Geological Survey, Miscellaneous Field Studies Map MF-1346, Washington DC, U.S.G.P.O.
- Reinbold, D.J. and Johnston, A.C., 1987, Historical seismicity in the Southern Appalachian Seismic Zone: U.S. Geological Survey Open-file Report 87–433.
- Rockwood, C.G., 1883, American Earthquakes: *The American Journal of Science*, v. 27, p. 353–360.
- Seeber, L., Armbruster, J.G., and Bollinger, G.A., 1982, Large-scale patterns of seismicity before and after the 1886 South Carolina Earthquake: *Geology*, v. 10, p. 382–386.
- Stover, C.W. and Coffman, J.L., 1993, Seismicity of the United States, 1568–1989 (Revised): USGS Professional Paper 1527.

- U.S. Geological Survey, 2001, Earthquakes In and Near the Northeastern United States, 1638–1998.
- Weston Geophysical Research, Inc., 1967. Earthquakes originating or felt in Virginia from 1727 to 1966, PSAR Survey Power Station Seismicity Analysis for Virginia Electric and Power Company, Weston, MA.
- Wills, C.J. and Clahan, K.B., 2006, Developing a map of geologically defined site-condition categories for California: *Bulletin of the Seismological Society of America*, v. 96, p. 1483–1501.
- Winkler, L., 1982, Catalog of earthquakes felt in the Eastern United States Megalopolis 1850–1930: *Bulletin of the Seismological Society of America*, v. 72, p. 2285–2306.

### **Paleoseismicity**

- Audemard, F.A. and Michetti, A.M., 2011, Geological criteria for evaluating seismicity revisited: Forty years of paleoseismic investigations and the natural record of past earthquakes: Geological Society of America, Special Paper 479, p. 1–21.
- Becker, A., Davenport, C.A., Eichenberger, U., Gilli, E., Jeannin, P., and Lacave, C., 2006, Speleoseismology: A critical perspective: *Journal of Seismology*, v. 10, p. 371–388.
- Becker, A., Ferry, M., Monecke, K., Schellmann, M., and Giardini, D., 2005, Multiarchive paleoseismic record of Late Pleistocene and Holocene strong earthquakes in Switzerland: *Tectonophysics*, v. 400, p. 153–177.
- Biswas, A. and Naik, A.N., 2010, Study on liquefaction of soil: National Institute of Technology, Bachelor of Technology Thesis.

- Crone, A.J. and Wheeler, R.L., 2000, Data for Quaternary faults, liquefaction features, and possible tectonic features in the Central and Eastern United States, east of the Rocky Mountain front: U.S. Geological Survey Open-File Report 00-260.
- Dominion Nuclear North Anna, LLC, 2006, North Anna Early Site Application, Part 2 – Site Safety Analysis Report, Sections 2.5.1 & 2.5.3, Rev. 9, September 2006: Self Published.
- EBASCO, 1993. Studies of speleothem deposits in the Giles County, Virginia, seismic zone, progress report for April and May, 1993: Unpublished report to Nuclear Regulatory Commission, Contract Number NRC-04-90-099, 79 p.
- Forti, P., 2001, Seismotectonic and paleoseismic studies from speleothems: The state of the art: *Geologica Belgica (Karst and Tectonics)*, v. 4, p. 175-185.
- Green, R.A., Maurer, B.W., Bradley, B.A., Wotherspoon, L., and Curbrinovski, M., 2013, Implications From Liquefaction Observations in New Zealand For Interpreting Paleoliquefaction Data in the Central Eastern United States (CEUS): Final Technical Report Award No. G12AP20002. U.S. Geological Survey, Reston, VA.
- Hafstrom, P. and Skogsberg, J., 1994, Liquefaction during the Limon-Telire Earthquake, 22 April 1991: Royal Institute of Technology, MS Thesis.
- Kagan, E.J., Agnon, A., Bar-Matthews, M., Ayalon, A., 2005, Dating large infrequent earthquakes by damaged cave deposits: *Geology*, v. 33, p. 261–264.
- Krinitzsky, E.L. and Krinitzsky, E.K., 1947, A fault-plane cavern: *The Journal of Geology*, v. 55, p. 107–119.
- Michetti, A.M., Esposito, E., Guerrier, L., Porfido, S., Serva, L., Tatevossian, R., Vittori, E., Audemard, F., Azuma, T., Clague, J., Commerci, V., Gurbinar, A., Calpin, J., Mohammadioun, B., Morner, N.A., Ota Y., and Roghazin, E., 2007, Environmental seismic intensity scale - ESI 2007.
- Obermeier, S.F., 1996, Use of liquefaction-induced features for paleoseismic analysis — An overview of how seismic liquefaction features can be distinguished from other features and how their regional distribution and properties of source sediment can be used to infer the location and strength of Holocene paleo-earthquakes: *Engineering Geology*, v. 44, 27760 p.
- Obermeier, S.F. and McNulty, W.E., 1998. Paleoliquefaction evidence for seismic quiescence in central Virginia during Late and Middle Holocene time: EOS, Transactions of the American Geophysical Union, v. 79, no. 17, Spring Meeting Supplement, Abstract T41A-9.
- Obermeier, S.F., Pond E.C., and Olson S.M., 2001, Paleoliquefaction Studies in Continental Settings: Geologic and Geotechnical Factors in Interpretations and Back-Analysis: USGS Open File Report 01-29.
- Panno, S.V., Lundstrom, C.C., Hackley, K.C., Curry, B.B., Fouke, B.W., and Zhang, Z., 2009, Major earthquakes recorded by speleothems in Midwestern U.S. Caves: *Bulletin of the Seismological Society of America*, v. 99, p. 2147–2154.
- Rauch, A.F., 1997, EPOLLS: An empirical method for predicting surface displacements due to liquifaction-induced lateral spreading in earthquakes: Virginia Polytechnic Institute and State University, Dissertation.
- Stewart, K.G., Dennison, J.M., and Bartholomew, M.J., 2002, Late Mississippian paleoseismites from southeastern West Virginia and southwestern Virginia: *Geological Society of America, Special Paper 359*, p. 127–144.

### **Earthquakes of the 1700s**

- Bear, J.A., Jr., and Stanton, L.C., eds., 1997, Jefferson's memorandum books: Accounts, with legal records and miscellany, 1767-1826: Princeton University Press, 1624 p.
- The Virginia Gazette, "Extract of a letter from Fredericksburg," February 24, 1774: Williamsburg, VA., p. 3.

### **Earthquakes of the 1800s**

- Bollinger, G.A., and Stover, C.W., 1978, List of intensities, epicentral distances, and azimuths for the 1897 Giles County, Virginia, earthquake and the 1969 Elgood, West Virginia, earthquake: U.S. Geological Survey Open-File Report 78-1017.
- Bollinger, G.A. and Hopper, M.G., 1971, Virginia's two largest earthquakes: December 22, 1875 and May 31, 1897: Bulletin of the Seismological Society of America, v. 61, p. 1033-1039.
- Campbell, M.R., 1898. Earthquake shocks in Giles County, Virginia: Science, v. 7, no. 164, p. 233-235.
- Oaks, S.D. and Bollinger, G.A., 1986, The epicenter of the m<sub>b</sub> 5, December 22, 1875 Virginia earthquake: New findings from documentary sources: Seismological Research Letters, v. 57, no. 3, p. 65-75.
- Street, R.L., 1979, An Instrumental mbLg Magnitude Estimate of the 1897 Giles County, Virginia, Earthquake: Seismological Society of America, Earthquake Notes, v. 50, p. 2-23.

### **Earthquakes of the 1900s**

- Ayers, R.L., 1972, A note on the Richmond, Virginia, Earthquake of September 5, 1972: Seismological Society of America, Earthquake Notes, v. 43, p. 4-21.
- Bollinger, G.A., 1968, The Narrows, Virginia Earthquake of March 8, 1968: Seismological Society of America, Earthquake Notes, v. 39, p. 3-47.
- Bollinger, G.A., 1971, The Fredericksburg, Virginia, earthquakes of September 12, 1971: Seismological Society of America, Earthquake Notes, v. 42, p. 3-32.
- Bollinger, G.A., 1975, A microearthquake survey of the Central Virginia Seismic Zone: Seismological Society of America, Earthquake Notes, v. 46, p. 1-13.
- Bollinger, G.A. and Costain, J.K., 1988, Long-term cyclicities in earthquake energy release and major river flow volumes in Virginia and Missouri seismic zones: Seismological Research Letters, v. 59, no. 4, p. 279-283.
- Bollinger, G.A. and Hopper, M.G., 1970, A Note on the Central Virginia earthquake of December 11, 1969: Seismological Society of America, Earthquake Notes, v. 41, p. 2-36.
- Bollinger, G.A. and Hopper, M.G., 1972, The earthquake history of Virginia 1900 to 1970: Virginia Polytechnic and State University, Department of Geological Sciences.
- Bollinger, G.A. and Sibol, M.S., 1985, Seismicity, seismic reflection studies, gravity and geology of the central Virginia seismic zone: Part I. Seismicity: Geological Society of America Bulletin, v. 96, p. 49-57.
- Bollinger, G.A. and Wheeler, R.L., 1988, The Giles County, Virginia, Seismic Zone – seismological results and geological interpretations: U.S. Geological Survey Professional Paper 1355.
- Bollinger, G.A., Sibol, M.S., and Chapman, M.C., 1992, Maximum magnitude estimation for an intraplate setting: Example: The Giles County, Virginia, Seismic Zone: Seismological Research Letters, v. 63, p. 139-152.

- Chapman, M.C., Powell, C.A., Vlahovic, G. and Sibol, M.S., 1997, A statistical analysis of focal mechanisms and epicenter locations in the Eastern Tennessee Seismic Zone: *Bulletin of the Seismological Society of America*, v. 87, no. 6, p. 1522–1536.
- Coruh, C., Bollinger, G.A., and Costain, J.K., 1988, Seismogenic structures in the Central Virginia Seismic Zone: *Geology*, v. 16, p. 748–751.
- Davison, F.C. and Bode, M.J., 1987, A note on the December 1986-January 1987 Richmond, Virginia, felt earthquake sequence: *Seismological Research Letters*, v. 58, p. 3–80.
- Davison, F.C., Chapman, M.C., Munsey, J.W., and Bollinger, G.A., 1984, A note on the Cunningham, Virginia earthquake of August 17th, 1984, in the Central Virginia Seismic Zone: *Seismological Society of America, Earthquake Notes*, v. 55, p. 26–40.
- Evans, N.H. and Milici, R.C., 1994, Stratigraphic Relations and Structural Chaos on the Southeastern Limb of the Blue Ridge Anticlinorium and Points East, Central Virginia Piedmont: VPI&SU, Department of Geol. Sci- Guidebook, v. 10, p. 31–64.
